

## Michigan Special Needs Parent Preferred Medical Professionals

Finding a doctor or dentist for your child with special needs is no easy task. They may SAY that they have experience with special needs, but do not. Many pediatricians have their own list of specialists, but do they really know what we need as parents? Does this specialist, pediatrician or dentist listen to our needs or the needs of our children? The below list has been compiled by **parents just like you**. The following is a list of our personal doctors that are knowledgeable about special needs issues. They are NOT recommendations.

### Adult & Pediatric Physicians
